# Filippa's story

” I went on a language trip to Malta for four weeks. On weekdays we had school in the mornings. In the afternoons, evenings, and weekends we made different activities like going to the beach, playing volleyball, watching movies, going into town, going on a boat trip, going to a disco, etc.

I loved all the fun excursions, especially the evening cruise. My best memory is the last night when we went to the beach to

swim in the sunset. Even though it was sad that we had to go home the next day, we had so much fun. We sat around a fire and talked, it was really super fun.

Now, a few years later, I realize that I learned a lot during my trip. In addition to English, I got to know many new people, especially a girl who is now one of my closest friends. I also still keep in touch with Paula, a girl from Spain that I met on the trip. It was so nice to get to know someone from another country.

Before the trip I was quite shy. But, the trip gave me more confidence and I am now much more open.

## Filippa's 3 top tips:

**Be open!** Be open to everything: new food, new environments, new experiences and most of all new people. Everything will be so much more fun if you are open and curious instead of sceptical and hesitant. It will make all the difference.

**Dare to go alone!** You will meet so many new people. If you go with a friend, chances are you'll be with him or her all the time. If you do travel with a friend (as I did and many do) it is important that you are open to others, otherwise there is a risk that you will miss out on a lot.

**Drink plenty of water!** Are you going to Malta, or any other warm country, it's important to drink plenty of water. It can be very hot and many in my group sometimes felt unwell due to dehydration. So, drink lots of water. And don't forget the sun cream!
